

Area: Lunchroom

I Am Respectful

I respect myself and others.

Teaching Examples

Example: Brandy is in the hot lunch line. She quietly waits her turn until the cafeteria staff looks at her to hear whether or not she wants the vegetable side. Brandy quickly says “yes please,” receives her tray, and says “thank you” as she moves on to the salad bar.

Non Example: Jacob is in the hot lunch line. He is laughing and pushing with his friend in line next to him. The kitchen staff is trying to hear whether or not they want the vegetable side, but neither boy is paying attention to her. This holds up the whole line and causes frustration for everyone.

Activity and/or Refresher to do later

1. Practice going through the hot lunch line with your voices off and ready to give the kitchen staff your choices (don't forget your manners!)
2. Practice sitting down at lunch tables without putting hands on another student. Practice hand in air with quiet mouths in case an aide has an announcement about recess.
