### Activity and/or Refresher to do later

1. Take your class to the playground and align in front of the swings/tire swings. On your command yell “switch” and students practice getting off the swings, going to the end of the line, then repeat until everyone gets a turn.
2. Tribes Student – Developed Lesson Plans Activity pg. 343 Have students brainstorm areas on the playground where they need to be respectful. In groups, students develop lesson plans on respect in that given area, and teach class how to be respectful. (Area ideas: swings, slides, football field, tire swings, slides, monkey bars)
