

Area: Hallway

I Am Safe

I take care of myself and those around me.

Teaching Examples

Example: Mrs. Baas' class was on their way to PE. Her students were walking on the right side of the hallway so they didn't run into Mrs. Warzybok's class as they were headed to the computer lab.

Non Example: Sheila was called down to the office. She was curious what it was for, so she ran down the hallway in order to get there faster. When rounding a corner she ran into another student and they both got injured.

Activity and/or Refresher to do later

1. Practice walking to various locations with your class in a **STRAIGHT** line, with eyes forward, and on the right side of the hall.
