

## Area: Bathroom

### I Am Trustworthy

*I can be counted on to do things in an honest way.*

### Teaching Examples

Example: When Sandy goes to the restroom, she is sure to return to class immediately when she's finished.

Non Example: Sam notices a big mess in the bathroom. He returns to class without saying anything to a grown-up. Correction: Sam notices the big mess in the bathroom and quickly tells the office before returning to class.

### Activity and/or Refresher to do later

1. Discuss situations in the bathroom that may need to be reported.
2. Discuss the importance of only using the bathroom when you actually have to go.
3. Discuss why things have a place (i.e. trash in trash can, not in toilet).
4. Discuss the consequence for all when you're not trustworthy about bathroom expectations (i.e. custodian having to get items out of the toilet, the whole class having new rules about frequency of bathroom use, etc.).
